per line either Random References or Locals. No heads allowed in Randoms.

### AGITATION IS WITHOUT EFFECT.

The abstaining-from-meat crusade is becoming a tame affair, after the first burst of hysteria. There was no good purpose to be accomplished, unless it be hygienic, as it is generally admitted by authorities on health that the American people are excessive meat

An agitation in favor of refraining from eating meat is absolutely zenseless, while the aim is to discipline and punish the "beef trust." The last man to be affected by the curtailed consumption of meat would be the big meat packer. He is too well entrepched to be disturbed by these spit-balls of disgust, flipped at him by the glib fellows who agitate. The only injury inflicted will fall upon the western livestock grower.

### BUILD A RESORT ON THE CUT-OFF.

There are those who are in favor of Ogden making an advertising cambaign, with the object in view of building a large resort on the Ogden-Lucin cut-off at Promontory Point and drawing attention to that wonderful piece of engineering achievement, the cut-off itself.

Speaking of the bridge across the lake, a former railroad man who had much to do with the preliminary work of demonstrating the practicability and utility of the "cut-off," said the line cost approximately \$2,500,000, returned the investment within two years, proved to be indispensable and will stand as long as there is a central highway of steel in operation through this region.

'Let me tell you something." he said. "One engine on the cut-off is now doing the work performed by 21 engines prior to the building of the road across the lake. The cut-off is the biggest money-maker ever created by Harriman.'

The way to reply to the Salt Lake attacks on this monumental work is to make more widely known the merits of the trestle over the Inland Sea, and thereby refute, in the most effective manner, the stories which are intended to injure Ogden by casting doubt on the permanency of this city as a railroad center dependent on the cut-off for its main railroad artery.

Nothing would do more to attract attention to the scenic grandeur of the cut-off and inspire faith in its solidity than a movement for the building of a great bathing and health resort on the sandy beach on Promontory Point-that body of land which, extending into the lake, divides the cut-off.

### GREAT RAILROAD SYSTEM.

The great resources of the Union Pacific and its auxiliary comoanies are presented in a statement issued in New York. The statement shows total assets of \$891,124,273, among which are included the following items

Cost of roads and equipment, \$92,374,836; deferred assets, including land and miscellaneous property and rolling stock \$64,334,197; contingent assets, including unadjusted accounts due on land and town and real estate contracts, \$40, 631,224. The liabilities include the total capital stock of \$367,017,700; the funded debts of \$18,174,-992; deferred liabilities, such as taxes assessed, vouchers not yet due, and payrolls, \$995,908; contingent liabilities, such as insurance, trust accounts and reserve for depreciation, \$111,132,894; and profit and loss of \$106,152,978.

The wonderful genius of E. H. Harriman as a financier and railroad reconstructor, is disclosed in the foregoing. Harriman took charge of the Union Pacific when it was bankrupted and by his command of capital and judicious use of millions, took the property out of financial straits and made it and its auxiliary company represent nearly a billion dollars-a sum beyond a man's ability to comprehend.

## COCAINE AND OTHER DRUGS, AND DISEASE.

Caling upon all Americans to urge congress to prevent loss of life and health by creating a national "Bureau of Public Health," leaders of the American Health League have announced that legislation would soon be introduced to this end at Washington on a nonpartisan basis. The league has issued a circular in which it is said that, responding to general demands for such a scientific check to the preventable disease and death that is now known to cost the nation \$1,500,000,000 in life and labor each year, officers of this organization are making every effort to have law speedily made of their recommendation, that was contained in the platform of the three leading parties in the last presidential campaign and has been advocated by leaders of every political faith ever since. President Taft has just assured representatives of the American Medical association and American Health league, they declare, that he is heartily in favor of this olan.

If the people of every section of the land will declare themselves on this vital question in the next few weeks, it is asserted, Uncle Sam may soon be brought to give the same attention to the physical welfare of human beings that he now does to that of sheep, cattle, hens and hogs.

Showing the immediate need of a federal health bureau to warn he people of this country of he dangers that menace their vitality in the most common walks of every day life, the American Health League is calling attention to drugs as well as disease with which very American may come in harmful contact through lack of knowledge of the principles of personal hygiene.

Numerous forms of drug habits are becoming more prevalent everywhere in the United States than most people realize, its officers assert. The dangers of cocaine, morphine and opium have been promnently brought before our police authorities and vigorous efforts are being made to at least control and minimize the sale of cocaine.

In a recent address at Washington, Dr. Harvey W. Wiley has called attention not only to these drugs, but also to the general use of caffeine, which he asserts is the most common habit-forming drug in this country, where over 800,000,000 pounds of coffee containing it are consumed each year, according to recent statistics, besides temperance drinks in which caffeine is sometimes found.

Tuberculosis and many other dread diseases might be checked and avoided in America through the educational activities of the proposed national bureau of health, it is pointed out. Fully 100,000 of | gin tonight. the deaths due each year to the Great White Plague in this country

could be prevented, the American Health League declares, while systematic activities by the government might result in lengthening the average life in this country as much as fifteen years. When congress is brought to realize the benefit to human life that must follow the creation of a national health bureau, this project of the people should be at once assured, it is predicted.

### Antique Tables.

An old gentleman was proudly ex-hibiting some of his most valued possessions to a friend who had called to see him. "That table," he said, with the pride of a connoisseur, "is 500 years old."

That's nothing," came the startling reply from the visitor's son, who was accompanying his father, 'we have one at home which is 3,000 years old."
"Impossible, my dear hoy—impossible. What kind of a table is it?" said the old gentleman.

#### BAILROAD SEPARATION CAUSES DEAD MAN RETURNS PARTITION OF COAL COMPANIES

Chicago, Feb. 11.—Separation of the Rock Island-Frisco combination Greely, Colo., Feb. 11.-Lamentation has been made complete by the parti-tion of the West Coal properties, which were jointly owned by these companies. Official announcement of expectedly. Sellwood brought with him a present intended for a sister who has been dead a year.

Last summer a skeleton found near Colusa was identified as Sellwood by portlons of a letter found near by such separation has just been made and it is said that the Consolidated Indiana Coal company, with head-quarters here, has taken over the sale of its own output, which previ-ously was handled by the Brazil Block

Coal company.

The Consolidated Indiana company

railroad and its divorcement from the Brazil Block company is incident to the recent separation of the Chicago & Eastern Illinois and St. Louis & San Francisco. The coal proper-ties represented by the Frisco and Eastern Illinois now are under the direction of Edwin Hawley, who has be-come interested in the B. F. Yeakum

## EXCITEMENT OVER A BULL'S EYE CAUSES DEATH

Washington, Pa., Feb. 11.—"How's that for a bull's eye?" said Levi T. Proctor, a civil war veteran, as he turned from a target at which he had shot. As these words left his lips he dropped in a lifeless heap on the floor. Proctor, who was 75 years old, was entertaining friends at his home with a riflefl contest. He was widely known as a marksman and, after some of the younger folk had tried their skill, he made the best shot of all. Excitement over the contest is said to have brought on heart failure.

## SIX TROUSAND IRON WORKERS HAVE THEIR PAY INCREASED

#### PULLMAN CAR PORTER IDENTIFIED AS ROBBER

Salt Lake, Feb. 11 .- R. L. Morgan, Pullman car porter, arrested Thurslay morning by Patrolman Egbert on suspicion of having held up and robbed three women Wednesday night in the south central part of this city, was positively identified Thursday by Mrs. Erastus M. Hansen, No. 2 Fairmont avenue, one of the victims, as peing the man who committed the rob-

I am confident that this is the man who robbed me and my daughter Wednesday night," said Mrs. Hansen Thursday, when Morgan was shown to her at her home. "I am there can be no mistake

Morgan was taken into custody early Thursday morning by Patrolman Egbert, but the colored man stoutly his innocence and stated that he had been employed for some

### 00000000000000000 CHIEF JUSTICE'S BIRTHDAY. O

Washington, Feb. 11.—This is the 77th birthday anniversary of Chief Justice Melville W. Fuller of the supreme court W. Fuller of the supreme court of the United States. He has served almost twenty-two years as chief justice. The chief jus-tice spent the anniversary quietly, receiving calls from many friends.

00000000000000000

time by the Pullman company. He told a plausible story and was re-leased by the authorities, but, after a consultation, was immediately rear rested. Following the identification by Mrs. Hansen, the man was locked up

in the city prison and will be neld to the charge of highway robbery.

The three women held up last night by a colored man were Mrs. Hansen and her daughter and Mrs. Jeanle

## **WORLD'S MARKETS**

PACIFICS SAME TODAY IN WALL STREET

New York, Feb. 11.- The opening of stock prices today was sluggish and dealings were light. The Copper and Industrials were heavy. International Harvester preferred declined 13-4, Amalgamated Copper and American Sugar 1, and American Smelting 5-8 United States Steel, St. Louis and Western preferred 1.

Buying orders were placed in the principal stocks and the whole list advanced in a striking manner. United States Steel recovered a point and Amalgamated Copper made up most of its loss. Railroad stocks were the leading influence, the strength dis-played by the Pacific and Reading having a good influence on the whole

Prices were below the highest at the end of the hour.

There were wide movements in a few stocks, but 'ie general market became almost idle. Offerings were scanty and prices hardened. Ameri-can Express sold at a decline of 5.
